Yes

Explain:

Public Website

Does your company maintain a public website describing all hearing aid-compatible models, the ratings of those models, and an explanation of the rating system? Yes

Website address: www.syringawireless.com/phones.php?id=hac

Explain:

Consumer Outreach

Describe consumer outreach efforts in the past 12 months: Syringa maintains a public website displaying its entire selection of handset and devices. Sales staff is trained to assist existing and prospective customers in identifying HAC handsets and devices. Handset packaging inserts or operational manuals also provide information. Customers are also directed to <http://www.accesswireless.org/Disability-Categories/Hearing.aspx> and other websites dedicated to HAC education. As Syringa acquires additional wi-fi capable handsets, it will continue to inform customers that such handsets have not been tested for hearing aid compatibility when used in a wi-fi setting.

Methodology for Functionality Levels

Syringa offers HAC handsets and devices in all major price categories, including low-cost (<\$100); moderate-cost (\$100-\$250); and high-end/feature-rich (>\$250). At least one HAC compliant handset/device with features and services typical of its price category can found that meets each customer's price range.
